Application 07-01-030

**ADMINISTRATIVE LAW JUDGE'S RULING AFTER THE SCOPING MEMO
CORRECTING AND AUGMENTING THE SCHEDULE**

There are several matters raised in the Scoping Memo issued April 23, 2007 that merit further attention. First, the schedule erroneously called for opening and reply comments to be filed on the same day. A corrected schedule, below, changes the date for opening comments to June 26, 2007. The date for reply comments remains the same.

Event	Anticipated Schedule	Variation 1	Variation 2
Utilities Release Pilot Questions	April 20	April 20	April 20
Release Cost-Effectiveness Calculator	April 27	April 27	April 27
Cost-Effectiveness Workshop to Discuss Calculator	May 7	May 7	May 7
Utility Supplemental Testimony Proposing Revised Pilot Programs	June 14	June 14	June 14
Workshop Addressing the Supplemental Testimony	June 20	June 20	June 20
Opening Comments on Proposals and Utility Pilot Questions	June 26	June 26	June 26
Reply Comments	June 29	June 29	June 29
Intervenor Testimony (if needed)	N/A	July 20	July 20
2 nd Prehearing Conference	July 13	August 6	August 6
Evidentiary Hearing (if needed)	N/A	N/A	August 20
Concurrent Briefs (if needed)	N/A	N/A	September 6
Issue Proposed Decision	September 4	November 20	TBD
Target Commission Decision Date	October 4	December 20	TBD

Second, the schedule anticipates that the Commission will conduct a workshop on May 7, 2007 to discuss the cost effectiveness calculator under development by the Commission staff. In this ruling, I am setting that workshop.

In addition, consistent with the schedule adopted in the scoping ruling, I am setting a prehearing conference for July 13, 2007 at 10:00 a.m. In order to save time and resources, the prehearing conference will be telephonic, only. The purpose of the prehearing conference is to determine whether parties will

stipulate to receipt of the application and exhibits into evidence without cross-examination. In the event that there will be evidentiary hearings, the prehearing conference will provide an opportunity to schedule witnesses and cross-examination.

Finally, the anticipated schedule reflects the assumption that there are no factual disputes requiring DRA or intervenor testimony, or evidentiary hearings, and that the parties will stipulate to the Commission receiving the utility testimony as evidence without cross-examination. Variation 1 reflects an adjusted schedule in the event that DRA or an intervenor offers written testimony after having demonstrated the existence of a potentially significant factual dispute. Variation 2 allows for evidentiary hearings if the parties decline to stipulate to receiving both the utility testimony and that of DRA or intervenors without cross-examination.

Concurrent with the filing of opening comments, any party seeking to offer testimony, or seeking evidentiary hearings, must file a motion identifying the significant fact or facts in dispute and explaining why additional testimony or a hearing would be necessary. Thereafter, I will issue a ruling as to whether or not there will be an opportunity to produce additional testimony, or conduct a hearing. If I conclude that there is a need for a hearing, I will notify all parties of the time and place.

IT IS RULED that:

1. The schedule issued in the April 23, 2007 scoping ruling is corrected by changing the date for filing opening comments to June 26, 2007.
2. The Commission will conduct a workshop to discuss the cost effectiveness calculator on May 7, 2007 starting at 10:00 a.m., at the Ronald Reagan State Building Auditorium, 300 South Spring Street, Los Angeles.

3. There will be a telephonic prehearing conference in this proceeding, to take place at 2:00 p.m. on July 13, 2007. In order to participate in the prehearing conference, parties must call 877-347-9604 and enter the following participant code: 771069. Applicant utilities shall submit supplemental testimony and exhibits as set forth herein.

4. Any party seeking the opportunity to offer additional testimony or an evidentiary hearing must file a motion to that effect, as described above, no later than June 26, 2007.

Dated April 30, 2007, at San Francisco, California.
